CHAPTER 1 FORCED TO BE GOOD (pp. 4-22) By making trade conditional on respect for human beings' right to dignity, a few economically powerful countries are changing the politics of trade and also the politics of repression. They are pushing their human rights agenda one country at a time through the use of preferential trade agreements (PTAs).

Forced to Be Good is broken down in four primary sections: preferences, institutions, power, and their effects. First, concerning preferences, Hafner-Burton Book Reviews 269 argues that key policy makers desire to include human rights language in PTAs because they stand to gain politically from the passage of such legislation (p. 25).

Forced to Be Good is the best single treatment of the issue I have read. Emilie Hafner-Burton argues, counterintuitively, that it's not because human rights NGOs have affected norms. She shows that a shift in institutional politics within the United States and the European Union made it impossible for political executives to negotiate trade deals as they had in the past.

Why else would forced contact be so widespread amongst families? He even manipulated the entire issue in his favor with such simple phrases as "It's just like hugging." Made sense to me. For the record, I'm not saying that it means a child has been abused by a given person when they refuse to hug that person.
